

## **Patient Access to Fairview Southdale Hospital Labor & Delivery & Maternal Assessment Center (MAC)**

Dear patients,

We're taking every precaution to prevent the spread of Coronavirus (COVID-19). Our top priority is to protect and care for our patients, visitors, and staff. For that reason, we have implemented some changes until further notice.

Please park in the **East Ramp ONLY** (near the Emergency Department) and enter the hospital through door 6:

- **Door #6** (see map)  
Your support person can drop you off at Door #6, then proceed to the East Ramp to park.
- To limit potential exposure to Coronavirus (COVID-19) in the Emergency Department and not overwhelm Emergency Department traffic, your support person should then enter in through Door #6
- Follow the pink signs to the Birthplace

### **Please be advised:**

- Only one designated visitor/support person is allowed during entire duration of your hospital stay. Your visitor/support person is not able to "switch out" with another person during your stay.
  - Everyone will be screened upon entering the hospital. Individuals who are sick or have known exposure to COVID-19 are not allowed to visit.
  - Support people should limit entry and exit to the hospital for the duration of your hospital stay.
- We encourage patients to work with their care team on alternative methods to connect and give and receive support.
- Please discuss any special circumstances that may require different accommodations with your Obstetrician (OB) Provider.
- For the safety of our patients, gifts and flowers are not allowed.

Thank you for your understanding and cooperation.
